

Governor Biography- Sammie Burrell

I became a Co-opted Governor in March 2024. My eldest child currently attends Hingham Primary School and I have two younger children.

I have worked in education as a teacher, middle manager, and senior leader for almost 20 years, working within mainstream and complex needs settings across all key stages. Within my complex needs work I have supported mainstream schools in an SEN advisory capacity. Currently, having stepped away from management to focus on my own young family, I teach part time within a complex needs school.

I strongly believe that children will flourish in an environment where they feel safe and nurtured. That fostering a love of learning, curiosity, creativity and independence are key to future success.

As a governor I am committed to supporting the school to achieve the very best outcomes for pupils.
